### **RoloPack S.A. Plastics Industry**

### **Our Company**

RoloPack SA. is a Greek manufacturing company with long experience in the plastics industry and a leading position in the domestic market.

It offers a wide range of highly durable and hygiene products, manufactured in our state of the art premises. We rely on high technology and expertise, and we are supported by our highly trained staff and a nationwide distribution network.

Our company's brands are:

- · EL-EF, our premium line
- · RODO, our economy line

With the **EL-EF** garbage bags, RoloPack has welcomed a new era in our industry as the EL-EF launch, marked the first time a storage or disposal bag product was linked to supporting a good cause:

### "The Smile of the Child" Organization.

Aside from garbage bags, our company produces food storage bags, clothing and rug storage bags, dry cleaner bags, table cloth rolls and hardware store items.

The great expertise and the continuous quality controls in our products' manufacturing process guarantee our customers' loyalty and trust.

Furthermore, RoloPack S.A. manufactures **private label** goods for the largest retail networks.

### Our ideology

RoloPack S.A. has been constantly improving with passion and creativity, keeping up with new technologies and staying up to date regarding the optimal quality of products. The company has been growing taking the costumers' requirements into serious consideration.

Our long experience in the industry is our commitment to high quality as regards our products but also to excellent services as regards people/consumers.

Our objective is for the final product reaching the consumer to have a guaranteed quality and optimum durability.

All our products are subject to strict quality controls, in order to be reliable and to make our everyday lives easier.

Always focusing on the customer's needs, we are offering **ISO 9001:2008** certified, high quality products, along with an **FDA** certificate, suitable for foodstuffs as well.

RoloPack S.A. has ensured continuous growth and recognition as one of the leading companies in the plastics industry, having the most complete and modern equipment along with its unique expertise.

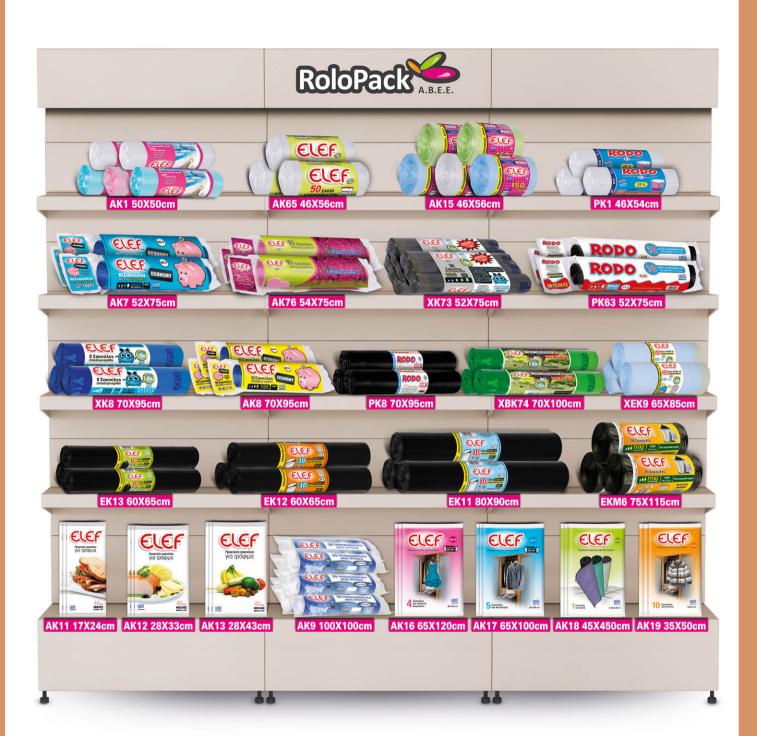

In today's business environment, market orientation and the focus on our customers are key requirements for success.

Having taken the above into consideration, continuous investment in **product promotion (Marketing)**, as one of the most important activities of RoloPack S.A., influences our company's competitiveness in a decisive way.

The objective of our company for the following years is to innovate, based on the sound human values and principles governing our business practice.

### With the goal of giving back to society, RoloPack is very focused on philanthropic

**Work.** For this reason, it actively supports The Smile of the Child with the EL-EF garbage bags. For each EL-EF package sold, €0,05 to €0,10 is donated to the Smile of the Child to build homes for disadvantaged children. From 2011 onward, RoloPack S.A. has steadily pursued charitable work, endeavoring to collect money on behalf of the needy.

The RoloPack Company was awarded for its charity work in the 2012 Effie Awards which are the global marketing effectiveness awards. RoloPack received an award in the CRM category for its significant contribution to The Smile of the Child.

### The smile of the child

The Smile of the Child "We all know and talk about children on the streets that never smile. They never smile because they have no money, no toys, no food and some of them do not even have parents. So, take a minute and think, let's all unite and provide what we can to the poor children from our neighbouring countries, black or white, they are all children and they deserve a smile. This organization will be called "THE SMILE OF THE CHILD".

Let's all help, we can make it if we all join our forces"

(from the journal of Andreas Giannopoulos, November 1995)

### Innovation and Social contribution

According to a survey carried out by Mindsearch in July 2010, female consumers were more than willing to contribute to this cause, not only because they were going to help "The Smile of the Child", but also because the new bags have modern aesthetics coming in a packaging loved by everyone because of its design and originality which make it stand out from all other packagings of that category.

This innovative approach of connecting garbage bags to a charitable cause, the modern packaging, the cheerful spirit in communicating this action and the small but significant amount of money supporting "The Smile of the Child", are all elements that lead to success.

It's been 15 years of continuous action for "The Smile of the Child" organization. A non-profit, volunteer organization, with the sole purpose and mission to cover in a direct and efficient way the needs of children within Greece. One of these needs is providing housing to children in need.

Until now, "The Smile of the Child" organization has established 9 homes extending a warm, family like embrace to hundreds of children who had to be removed from their family environment upon the decision of the competent state bodies.

Our objective now is to establish another home for the children that the Organization cannot

accommodate due to space constraints. EL-EF garbage bags by RoloPack SA are going to contribute to this objective as well. A company catering to the consumer's needs and the market trends and which always offers products of high quality and aesthetics. Through a product which typically helps keep the environment clean, the company has the chance to show its social sensitivity by participating in the establishment of yet another Home for the children in need.

"The Smile of the Child" and RoloPack SA. are asking you to participate through a kind gesture. By placing the EL-EF bags on the shelves of your stores, you are contributing to the establishment of yet another children's Home.

Various promotional materials have been developed for the promotion and communication of **EL-EF** products in conjunction with The Smile of the Child.

Apart from the standard Sales Organizer to facilitate our sales force, we employ a full range of point of sale materials to facilitate shoppers.

In combination with our TV campaign, our products have benefited from widespread media coverage.

## RoloPack products can be found in many supermarkets such as:

You can also find them in many retail & wholesale outlets throughout Greece.

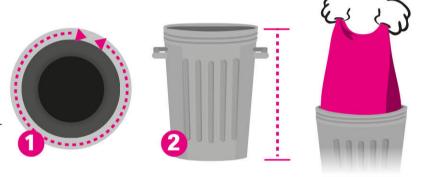

Using bags of proper dimensions contributes to environment protection. How can that be achieved? By teaching the consumer to use bags of proper width and height:

- Choose the proper width
  Calculate half of the perimeter of the bin
  + 2 centimetres.
- Choose the proper width for the bag
  Calculate the height of the bin + 5 centimetres +
  one fourth of the bin's perimeter

# RECYCLING PACKAGING MATERIALS

Recycling System Approved by the Ministry of Environment

www.herrco.gr

# WHAT WE SHOULD KNOW...

# Instructions!

Sort the packaging materials from other material on a daily basis

Scrape out all remains from packaging

Empty the packaging items in the bin without using tied-up carrier bags

### what we recycle

Glass packaging

what they can be turned into

NEVER put ordinary rubbish in the blue Recycling bins
